

# Edward Anthony Escudero Bowie

## Full-Stack Software Engineer

**Location:** Medellín, Colombia

**Phone:** (+57) 3161046252 | (+57) 3224025355

**Email:** [sheddagame@gmail.com](mailto:sheddagame@gmail.com) | [djeddyedward@gmail.com](mailto:djeddyedward@gmail.com)

**LinkedIn:** [linkedin.com/in/EduShed](https://linkedin.com/in/EduShed)

**Portfolio:** [portfolio.kydek.com](https://portfolio.kydek.com)

---

## Professional Summary

Full-Stack Software Engineer with 5+ years of experience developing scalable web applications and blockchain solutions. Currently leading Web3 platform development at Memecoin.org while serving as CTO at Throu S.A.S, managing cross-functional teams and delivering high-performance systems. Expert in React ecosystem, smart contract integration, and modern development practices with proven track record of optimizing system performance by 35% and accelerating team delivery by 20%. Trilingual professional fluent in English, Spanish, and Creole.

---

## Technical Skills

**Languages:** TypeScript, JavaScript, C#, Java

**Frontend:** React, Next.js, Vite, HTML5, CSS3, SCSS, Three.js, GSAP

**State Management:** Zustand, React Query, Redux, Context API

**Backend:** Node.js, Express.js, RESTful APIs, WebSockets

**Databases:** MongoDB, MySQL

**Cloud & DevOps:** Microsoft Azure, Git, CI/CD, GitHub Actions

**Testing:** Jest, React Testing Library, Unit Testing, Integration Testing

**Blockchain:** Web3.js, Smart Contracts, Solidity, DeFi Protocols

**Development Tools:** Bun, Android Studio, Unity, Adobe XD, Figma, Postman

---

## Professional Experience

### Frontend Developer — Memecoin.org (*Full-Time Contract, Remote*)

*January 2025 – Present*

- **Developed and deployed** full-scale Web3 platform from scratch using Next.js, handling thousands of daily transactions
- **Built decentralized applications (dApps)** with seamless smart contract functionality, wallet connectivity, and real-time blockchain data
- **Enhanced platform performance** achieving significant load time improvements through code optimization and efficient data fetching
- **Collaborated on technical architecture** for scalable front-end systems with API integrations and responsive design implementation
- **Technologies:** Next.js, React.js, TypeScript, JavaScript, Web3.js, Smart Contracts, UI/UX Design
- **Live Platform:** [memecoin.org](https://memecoin.org)

## Chief Technology Officer — Throu S.A.S (*Part-Time Contract, Remote*)

2022 – Present

- **Designed and engineered** secure Web3 investment platform processing significant digital asset transactions with zero security incidents
- **Implemented smart contracts and payment flows** enabling automated financial operations and multi-wallet integrations
- **Managed remote development team** of 5 developers across multiple time zones, improving delivery velocity by 20%
- **Established technical standards** for code quality, security protocols, and scalable infrastructure architecture
- **Technologies:** Next.js, React.js, Node.js, MongoDB, Smart Contracts, Web3, Security Protocols, UI/UX Design
- **Platform:** [throu.app](https://throu.app)

## Web Developer — Gunny Games (*Freelance Contract, Remote*)

2024

- **Created gamified platform** with token-based rewards system serving hundreds of active users with blockchain-powered progression
- **Boosted platform load speeds by 35%** through comprehensive performance audits, code refactoring, and database optimization
- **Implemented real-time features** including live token updates, user notifications, and dynamic content rendering
- **Developed cross-browser compatible interface** ensuring consistent user experience across desktop and mobile platforms
- **Technologies:** Next.js, React.js, Three.js, TypeScript, Node.js, Web3, Performance Optimization, UI/UX Design
- **Demo:** [gunny-games-web.vercel.app](https://gunny-games-web.vercel.app)

## Web Developer — Mango House (*Freelance Contract, Remote*)

2022 – 2023

- **Built comprehensive booking platform** handling dozens of daily reservations for rooms and vehicles with integrated payment processing
- **Developed mobile-first responsive interface** achieving high user satisfaction scores and cross-device functionality
- **Enhanced booking speed and efficiency by 25%** through API optimization, database indexing, and streamlined user workflows
- **Integrated multiple third-party services** including payment gateways, email notifications, and booking management systems
- **Technologies:** React.js, Node.js, RESTful APIs, UI/UX Design
- *Project archived by client request*

## Unity Developer — La Panquequería (*Freelance Contract, Remote*)

2021 – 2022

- **Developed cross-platform mobile application** using Unity for brand engagement and customer interaction
- **Implemented user interface and experience design** following mobile development best practices
- **Collaborated with client stakeholders** to deliver custom branded mobile solution
- **Technologies:** Unity, C#, Mobile Development, UI/UX Design
- *Project kept private by client request*

---

## Professional Projects & Portfolio

**Live Project Demonstrations:** Comprehensive showcase of deployed applications and technical implementations available at [portfolio.kydek.com](https://portfolio.kydek.com)

---

## Education

**Bachelor of Science in Systems Engineering** (*Candidate*)

Universidad de Medellín, Colombia

*Expected Graduation: September 2025*

**Relevant Coursework:** Data Structures & Algorithms, Database Design, Software Architecture, Distributed Systems

---

## Certifications & Professional Development

- [Gunny Games Technical Excellence Certificate](#) (2024)
  - [Mango House Project Completion Certificate](#) (2023)
  - [IBM: Databases and SQL for Data Science with Python](#) (Coursera, 2023)
  - [Ruta N Innovation Marathon Participant](#) (2023)
- 

## Core Competencies

**Technical Leadership:** Cross-functional team management, technical architecture planning, code review processes

**Software Development:** Agile methodologies, test-driven development, continuous integration/deployment

**Problem Solving:** Complex system debugging, performance optimization, scalability solutions

**Communication:** Stakeholder collaboration, technical documentation, client relationship management

---

## Additional Information

**Languages:** English (Fluent), Spanish (Native), Raizal Creole (Native)

**Availability:** Open to full-time, contract, and consulting opportunities

**Portfolio:** Comprehensive project showcase available at [portfolio.kydek.com](https://portfolio.kydek.com)
