PROFESSIONAL EXPERIENCE

Throu Investments startup   2023 - present

Software developer

Hired to develop an investment platform from scratch. Tasks relied mostly on constructing the design of the platform, and furthermore, integrating backend logic alongside Web3 functionalities.

Key contributions:

- Designed and developed the platform architecture.
- Integrated Web3 functionalities for secure and efficient investment transactions.

- Collaborated with a cross-functional team to ensure seamless deployment.

Mango House   2022 - 2023
Web developer

Developed a complete appointment scheduling web platform for a rental agency in San Andres, Colombia. The platform's main objective was to attract clients and enable them to reserve rooms or vehicles during vacations or holidays.

Key contributions:

- Designed and implemented a user-friendly booking interface.
- Developed backend services for real-time booking and scheduling.
- Ensured mobile responsiveness and cross-browser compatibility.
